Master Tracking Number: TNR148979
Hillwood Subdivision, Sect. 2, Lot 20
Beazer Homes - Nashville Division
Murfreesboro, Rutherford County, Tennessee

Dear Mr. Tobias:

You recently submitted a Notice of Intent (NOI) form as part of an application package to obtain coverage under a General NPDES Permit for Storm Water Discharges Associated with Construction Activity. The Division of Water Resources (the division) acknowledges receipt of the most recent version of the application for the above referenced project on January 2, 2015. After review, the application was deemed to be complete on January 2, 2015. Enclosed is the Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, etc.

Contractor Information

We do not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

Annual Maintenance and Coverage Termination

Effective July 1, 2014, permit fees for the CGP have been revised. In addition to new application fee amounts, annual maintenance fees are now required for projects that exceed one year of coverage. Permittees wishing to terminate coverage must submit a completed notice of termination (NOT) form, which is available on the division's construction stormwater webpage at <http://www.tn.gov/environment/permits/conststrm.shtml>.

The division will review the NOT for completeness and accuracy and, when necessary, investigate the proposed site for which the NOT was submitted. The division will notify the applicant that either the NOT form was received and accepted, or that the permit coverage is not eligible for termination and has not been terminated. If applicable, the notification will include a summary of existing deficiencies.

We appreciate your attention to the general construction storm water permit and its requirements. A copy of the CGP can be obtained from <http://tn.gov/environment/permits/conststrm.shtml>. We believe this does make a difference to the quality of state waters. If you have any questions, please contact Ms. Ann Morbitt at (615) 687-7119 or by e-mail at Ann.Morbitt@tn.gov.

Sincerely,

Ann Morbitt
Environmental Program Manager
